

Device & Internet Policy

POLICY

Session 2026–27

Welcome to the **Device & Internet Policy** of Atulya Defence Academy. This guide explains how devices and internet access are managed in the academy, ensuring a **safe, disciplined, and distraction-free** environment where cadets can focus on academics and defence training.

Why This Policy Matters

Devices and the internet are **powerful learning tools**, but without discipline, they can cause distractions. At Atulya, we encourage **responsible and balanced** use of technology so that it supports — not disrupts — training and studies.

“Technology should be a tool for growth, not a barrier to focus.”

Device Policy

Mobile Phones

Not allowed during academic hours. Hostel cadets must submit phones to the warden and may use them only during designated times.

Laptops/Tablets

Permitted only with prior approval for academic or project-based use.

Other Gadgets

Music players, gaming consoles, and similar devices are prohibited to maintain focus on academics and training.

Smart Watches

Allowed only for health tracking; misuse for communication or games is not tolerated.

Internet Usage Rules

Academy Network

Internet access is available only through the academy's secured network.

Purpose

To be used strictly for academic research, online classes, or assignments.

Restrictions

Social media, gaming, and non-academic browsing are not permitted.

Monitoring

Internet activity may be monitored to ensure responsible use and prevent misuse.

Guidelines for Parents

Limit excessive device use at home.

Encourage reading, sports, and face-to-face interaction.

Talk to your child about responsible online behaviour.

Support the academy's restrictions for consistency.

Consequences of Misuse

First Violation

: Verbal warning and confiscation of the device.

Repeated Violation

: Written warning to parents and extended confiscation period.

Serious Misuse

: Suspension of privileges or disciplinary action as required.

Final Note

At Atulya Defence Academy, discipline applies to **digital life** too. By following this policy, cadets learn the importance of balance, focus, and responsibility. These habits will guide them towards academic success and prepare them for their future in defence services.

“Responsible use of technology today builds disciplined leaders for tomorrow.”
